UNIVERSITY LIBRARY UNIVERSITY OF ALBERTA

Hon. J. W. Estey, K.C.,

Minister of Education,

Legislative Bldg., Regina, Sask.

SIR:

I beg to submit the following report of the business of The Saskatchewan Power Commission for the year ending December 31, 1940, and attach hereto the financial statement in the form approved by the Treasury Board.

The Commission owns and operates 1,527 miles of transmission line, chiefly 13,200 volts, and the distribution systems in 135 towns and villages. A plan attached shows the location of these lines and of the generating plants from which the system is supplied with electrical energy.

The Commission owns and operates generating plants located at Saskatoon, North Battleford, Swift Current, Tisdale, Wynyard, Humboldt, Watrous, Nokomis, Maple Creek, Unity, Canora, Leader, Shellbrook and Willow Bunch. The plants at Saskatoon and North Battleford are steam plants and the others listed are equipped with Diesel engine driven units. The installed capacity is 30,000 kilowatts.

The total electrical energy generated at Commission owned plants was 56,717,006 k.w.h. and a further quantity of 2,423,188 k.w.h. was purchased from other sources. The Cities of Saskatoon, North Battleford and Swift Current and the Town of Battleford own and operate their distribution systems, purchasing power supply in bulk from the Commission.

The services of the Commission were placed at the disposal of the Dominion Departments of Transport and National Defence in the provision of a power supply to Military Camp and Air Training Fields at Saskatoon, North Battleford, Swift Current, Dafoe, Vanscoy and Dundurn. This involved the building, at the Dominion's expense, 39 miles of transmission lines and extensive systems of camp distribution.

The Commission built an additional 92 miles of transmission to its own transmission system, comprised by lines from Saskatoon to Dundurn and from Dundurn to Young. These lines enabled service to new villages at Bradwell, Elstow, Allan, Colonsay and Viscount, and connected the Watrous system to the Saskatoon generating centre.

The generating plant at Wynyard was enlarged by the installation of a new 350 h.p. Dominion Crossley Diesel unit, and a 200 h.p. unit of similar make was added to Canora plant.

#### OPERATION

The financial statement, comprising the balance sheet and operating accounts for the year show a net profit of \$3,386.93 after providing for operating costs, interest charges in full on capital invested and debentures assumed, and for depreciation and replacement reserves of \$199,025.04.

The total revenue was \$1,344,539.47, operating costs were \$747,566.53, leaving an operating profit of \$596,972.94 available for interest charges, depreciation and replacement.

The revenue for the year, exclusive of Saskatoon, North Battleford and Swift Current was \$673,680.26, being an increase of \$76,960.67 over the year 1939, or 12.9 per cent.

A comparison of all reserves for 1940 with those of 1939 is given hereunder:

Capital Reserves \$ 503,296.61 \$ 443,315.14

Increasing revenue reflects increases in loads throughout the system, which, from all indications, may be considered as permanent.

Full maintenance provision was made throughout the properties. Service was continuous with minor interruptions, except during bad sleet conditions in some districts in the final week of the year.

#### ELECTRICAL INSPECTION AND LICENSING ACT

The Commission is responsible for the administration of this Act. The Act regulates the class of electric wiring to be installed throughout the Province; provides for licensing contractors, journeymen and electricians engaged in this work, and for the inspection of such work by the staff of Inspectors employed by the Commission. The record of the work undertaken during the year shows a substantial advance over the previous year, and is indicated by the following comparative statement:

	1940	1939
Inspections made	15,848	11,903
Fees for inspections	\$14,559	\$11,131
Contractors' licences	78	74
Contractors' limited licences	264	226
Journeymen's licences	154	129
Electricians' licences	50	42
Supply house licences		7

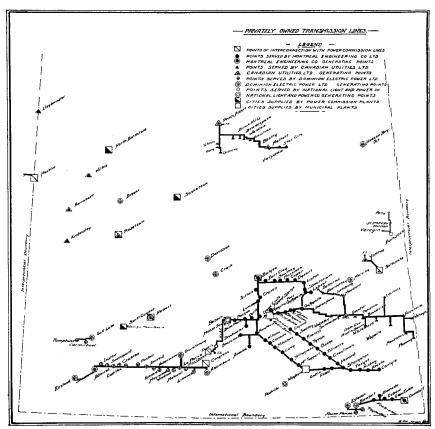

The financial statement includes particulars of receipts and expenditures relative to this service.

Respectfully submitted,

L. A. THORNTON,

Chairman.
